These items are used by lead canvassers. They place sample display copies and brochures (in holders [small display stands])—in the waiting rooms of professional offices. Contact Perry Loudon, an expert with 23 years experience (423-309-1243) for information on how to do this. Lead card selling has been highly successful for decades, but requires systematic organization to keep checking and refilling holders with brochures, plus careful follow-up to homes of those

who mail in cards. (Contact me (vf) and I will give a free label sheet master, so you can place your own address labels on each card and brochure! You MUST put your address on those cards!) Here are the supplies, at cost price. To start with, order our STARTER KIT (below), look over the samples, and read the Colporteur Canvasses booklet (enclosed in the kit) carefully.
